---	--

## Overview

We will conduct the Phone-IN session from our office to a phone of your choice in any location in the world. The participant in question will need to feel comfortable in his/her surroundings and free to make sounds and talk aloud.

## What happens?

At a pre-appointed time your delegate calls us on a number we give them beforehand. We then conduct the tuition over the phone or via Skype over the internet.

## THE SESSION

There are 4 sessions in total. The length of each session is 40 minutes. It is best to have one session per week over a four week period. The reason for this is that the delegate will learn a certain module of information that they will be required to practice repetitively for a week. That way they build their skill. (As your delegate travels he/she could phone from anywhere, which will be most convenient to them ) We will correspond via email to set up the time for each lesson.

The delegate will be sent a set of 5 CDs to accompany the program, as well as appropriate notes- sent as an email or downloadable from our website.

The delegate will receive personal tuition under the guidance of one of our top elocution experts. This tutor will remain with them for the duration of the course. We find people feel much more confident this way.

As soon as you decide to go ahead we will send the CD set to the delegate and set up dates and times to suit him/her.

Please visit this link [HERE](#) to request a recommendation on the course that will best suit your particular delegate. To make a booking visit [HERE](#)  
We look forward to helping you with your communication skills!

## Session Instructions:

Once signed up , you can find call instructions for Phone-IN Participants at the bottom of the page in the resources section [HERE](#).

We will also be sending instructions directly to the participant prior to their first session.
